Wright, J. L., 159

Yamada, T., 131

Zaccardo, G., 593
Zeltner, T. B., 145

Alveolar macrophages, migratory behaviors of, 451
Amiodarone, response of rat lungs to, 577
Asbestos-induced release, of human alveolar macrophage-derived neutrophil chemotactic factor, 121

Baseline lung function, in guinea pigs, 617
Bone marrow depression, suppresses early inflammatory response and fibrosis, 671

Chlorpromazine, effect of on lung injuries in rabbits, 423
Coal worker's pneumoconiosis, abnormal secretion of interleukin-1 and tumor necrosis factor alpha by alveolar macrophages, 73
Coal worker's pneumoconiosis, molecular epidemiology of coal worker's, 57
Corticosteroids, alteration of distribution intratracheally administered radiolabeled phosphaticylcholine in preterm rabbit, 311
Cystic fibrosis, tracheal potential differences in rat models, 661

Eglin-C, inhibition of porcine pancreatic elastase-induced emphysema by, 547
Endothelin, uptake and metabolism in the isolated rat lung, 521
Epithelioid cells, production of angiotensin-converting enzyme and interleukin-1, 489

Fluorescence polarization changes, with gestational age in amniotic fluid, 507

Glycerophosphate acetyltransferase, activity in maternal guineau pig lung, 481

Hormones, effects of on functional differentiation of mouse respiratory epithelium, 191
Human bronchial mucosa, exogenous mineral particles in, 159

Inhaled particulate, species comparisons of proximal alveolar deposition pattern, 83
Inorganic dusts:
  lung diseases related to, in The Netherlands, 15
  occupational exposure, health effects of, 1

Leukotriene D_4, induces mucus secretion in guinea pig, 711
Lipid composition, altered by body temperature in the lizard, 435

Lipids, in airway mucus of acute quadriplegic patients, 369
Lipoxygenase metabolites, of arachidonic acid by monolayer cultures of tracheal epithelial cells and intact tracheal segments from rabbits, 211
Lung parenchyma, exogenous mineral particle in, 159
Lung permeability, immunochemical and immunohistochemical evaluation of, 593
Lung fibroblasts, rat and human, proliferation of following exposure to prostaglandin E2, 235

Mineral dust, exposure to, and free radical-mediated lung damage, 41
Morphometric estimation, of regional differences in the rat lung, 145

NO_2, decreases paracellular resistance to ion and solute flow, 561

Phospholipase A_2, pathophysiologic changes induced by in the isolated, perfused guinea pig lung, 323
Piripost pretreatment, attenuation of smoke-induced increase in ^{99m}TcDTPA lung clearance, 339
Pneumoconioses, situation in developing countries, 5
Polyinosine-polycytidylic acid, ameliorateds bleomycin-induced lung fibrosis in mice, 533
Prostaglandin E_2, proliferation of rat and human lung fibroblasts following exposure to, 235
Protein synthesis, increased by conditioned medium from irradiated bovine endothelial cells, 405
Pulmonary edema, evaluation of reexpansion of following unilateral pneumothorax and superoxide dismutase in rabbits, 355
Pulmonary oxygen toxicity, mitigation of in premature lambs with intravenous antioxidants, 177

Quinacrine, effect of on lipid content of broncheolar lavage fluid in guinea pigs sensitized to ovalbumin, 111

Silicas, effect of on arachidonic acid metabolism in alveolar macrophages, 691
Substance P, release of from guinea pig trachea leukotriene D_4, 645
Surfactant, cumulative effects of repeated treatments in rabbits, 131
Surfactant, semisynthetic, potential role in experimental aspiration trauma in rabbits, 101
Surfactants, intratracheal, alteration of distribution of intracheally administered radiolabeled phosphatidylcholine in preterm rabbit, 311

Total respiratory impedance, measurement by forced oscillations, 25

Transforming growth factor beta, effect of on glycosaminoglycans, 389
Tyrosine kinase activity, during lung injury, fibrosis, and compensatory lung growth, 257
Verapamil, effect of on pulmonary artery hypertension, 627
Vitamin E, alters alveolar Type II cell phospholipid synthesis, 607
